Re: Cargo of frozen asparagus spears

CARGO SURVEY REPORT

THIS IS TO CERTIFY that the undersigned Marine Surveyor, did on 11/21 and 11/27, 2012 at the request of Ms. Valerie Kelly from FIMCOR INTERNATIONAL, Inc. and for the account of FIMCOR INTERNATIONAL, Inc. Inspection on cargo of frozen asparagus spears, while cargo was stowed at CFC Logistic 4000 Am Drive, Quakertown PA 18951.

ATTENDING SURVEY

Zlatomir S. Vergiev, Marine Surveyor
Jeff Funk, Warehouse Senior Supervisor
DESCRIPTION

CARGO

CIRCUMSTANCES OF SURVEY

Cargo was stowed at Freezers Warehouse belonged to CFC Logistics were stripped out at Marine Container Services 4000 Am Drive, Quakertown PA 18951. Each pallet was taken out of freezer and examined. In total, twenty pallets were examined. From each pallet, above signed surveyor, randomly check five carton boxes. From each box at least one plastic bag was opened, temperature inside was measured, and thickness of the stems was measured and visually inspected.

STATEMENT

Each plastic bag was individually examined.
- temperature inside of the bag was measured
- all stems were counted
- each stem diameter was checked with digital micrometer
- all stems were checked for decay, dirt, insects etc.
- all stems were checked for color, trim and shape.

The inspection was based on United States Standards for Grades of fresh asparagus, effective February 23rd, 2006.
SUMMARY

Average temperature found is between 0 degree and 5 degrees (bags were examine out of freezer). The Temperature is according to the standard 0 degree. The average diameter of the stems was between 5/16 inch and ½ inch or 7.9 mm and 12.7 mm., responding to Grade 51.3721 U.S. No. 2. Each bag consists of 17-19 stems or 8 oz. All stems were found free of decay, dirt and insects. All stems were well trimmed, and not badly misshapen. No less than one half of the stems were color of the lot.
Generally inspection did not find any defects or damages. The whole LOT is in good conditions and according to standards.
